

The Westchester County  
Department of Emergency Services

# TRAINING ANNOUNCEMENT

Issued: January 17, 2018

Announcement #: 18-27E

# Thoracic Injuries

A chest injury is any form of physical injury to the chest including the ribs, heart and lungs. Chest injuries account for 25% of all deaths from traumatic injury. Typically chest injuries are caused by blunt mechanisms such as motor vehicle collisions or penetrating mechanisms such as stabbings. Join Drew Fried, EMT/CIC as he discusses the multi-faceted world of thoracic injuries.

This course may be applied toward Trauma or General Elective CME hours under the NY State DOH EMS Continuing Education Recertification Program.
