# TRAINING ANNOUNCEMENT

Issued: March 15, 2018 Announcement # 18-70E

# *Response to MCIs Workshop*

Multiple-Casualty Incidents (MCI) can be difficult to manage and may frustrate even the most seasoned EMS provider in the absence of a systematic triage, treatment, and transport approach. The ability of an EMT to transition from day-to-day operational goals to the unique needs of an MCI is not done easily. Initial bad scene management by EMS can quickly create more of a disaster than first encountered.

Join Jeff Meade, NREMT-P, CIC/RF in a discussion of *E*MS operations during an MCI, as well as a review of the triaging of victims in the face of limited resources. This presentation is intended to help EMS personnel better understand how to utilize resources most efficiently, triage objectively, and maximize patient outcome. The Instructor will review in a practical, tabletop classroom exercise the goals and objectives of MCI response by EMS agencies. Students will be asked to role-play the positions of EMS operations at an MCI, within given scenarios.

*This course may be applied* toward *Preparatory, Patient Assessment, Trauma, or Elective CME hours under the NY State DOH EMS Continuing Education Recertification Program.*

**Date(s) / Time(s)**: **Tuesday, May 1st 6:30-9:30pm & Thursday, May 3rd 6:30-9:30pm**

**Targeted Audience:** First Responders

**Program Location**:
-Westchester County Department of Emergency Services
4 Dana Rd, Valhalla, NY 10595
-All students are to park in the lot adjacent to the Support Services Building located at 35 Walker Road. (There is a stairway linking the parking lot directly to the training campus).
