

The Westchester County
Department of Emergency Services

TRAINING ANNOUNCEMENT

Issued: March 21, 2018

Announcement: 18-75E

Obstetrics, Neonate, & Pediatrics (BLS Core)

Women have been birthing babies long before EMS became a health care alternative, and with birth comes a baby. Most of the labors we respond to are easily managed with little or no complications, but sometimes we may feel out of our element as first responders. Depending on where we work, we may not get as much experience working with this population of patients. Join Anne Castioni EMTP/CIC, as she discusses some of the top causes of gestational complications and pediatric emergencies and how you can be better prepared to handle them. Other Items Discussed:

- Assessment
- Normal Delivery
- Abnormal Delivery
- Resuscitation
- Vitals
- Respiratory distress
- Seizures
- SIDS

This course may be applied toward Ob/Neonate/Pediatrics Core or general elective content under the NY State DOH EMS Continuing Education Recertification Program.

- Date(s) / Time(s):** Thursday, May 24th 6:30-9:30pm
